APPRENTICESHIPS

Designed specifically to meet your needs as an employer, apprenticeships ensure your workforce has the skills and qualifications you need now – and for the future.

Roundhouse Corporate boasts a wealth of expertise in recruiting and training apprentices for vital roles across the land-based industries.

They span areas such as agriculture, animal care, environmental conservation, horse care and horse management, floristry, and horticulture.

Ofsted inspectors said that our apprenticeships were well planned to meet the needs of employers and praised the way we help apprentices progress to sustainable employment, promotion and higher levels of responsibility in the workplace.

THE BENEFITS FOR YOU

With an apprentice, you will be bringing in exciting new talent. They are eager, motivated, reliable and loyal to their organisation – and you can steer their progress to suit your business needs.

By joining forces with us to develop your apprenticeship provision, you could fill your skills gaps and solve your recruitment problems. Recent surveys show that a majority of employers find apprenticeships more cost effective than hiring skilled staff, reducing their spending on training and recruitment.

We help you find the ideal candidate for your vacancy: someone to fit in well at your organisation. We can even arrange work trials before you sign them up.

Our Assessors will then work with you and your apprentice all the way through the training to keep everything on track.

Flexibility is key. Our programmes can be adapted to suit your working schedules and achieve maximum impact with minimum disruption.

We are always happy to discuss different modes of delivering training and to advise you on the funding available to support apprenticeships, including guidance on the Apprenticeship Levy.

“ Apprentices develop good vocational skills which improve their employability, and which contribute to the success of their employers’ business. ”

- Arrange interviews and/or selection days to choose the best person for your business – again at no cost
- Deliver training in essential employability skills to ensure your apprentice is ready for the workplace
- Assist you to access any additional funding to support apprenticeships
- Support you and your apprentice to gain maximum benefit from the programme
- Secure the provider for any endpoint assessments which might be needed.

FIRST CLASS TRAINING

From all-important skills in English and maths to advanced specialist qualifications, we offer highly flexible routes for you to upskill your workforce. We can foster greater confidence, capability and motivation within your teams.

CAREER LEARNING LADDER

Would your workforce benefit from additional qualifications? Are you up to date with latest industry developments? Would you like to introduce new services to your business?

Our Career Learning Ladder portfolio could be the answer. It features highly flexible part-time programmes in everything from dog grooming, pet sitting and dog walking to floral design.

For farm workers and tree surgeons, there are opportunities to gain NPTC certificates in subjects like the safe use of pesticides, tractor driving, the operation of all terrain vehicles, forklift trucks, brush-cutters, trimmers and mowers, chainsaw operations, tree felling and aerial rescue.

We also offer high-quality programmes leading to qualifications awarded by organisations like the Royal Horticultural Society and the British Horse Society.

Contact us about funding for these opportunities. Free training may be available for adults meeting certain criteria: under a current government trial, this includes employees on low wages.

ENGLISH, MATHS AND DIGITAL SKILLS

British businesses employ some of the most talented people in the world but we often lag behind our competitors when it comes to the English, maths and digital skills of our workforce.

Employees with low or no English and maths qualifications can cost your organisation money, business and reputation. Our team of experts will work with you to deliver training programmes that upskill your staff in these crucial areas.

We also offer a full range of workshops to help your staff improve their computing, digital and administration know-how – an excellent way to provide your clients with more efficient and effective services.

This includes Microsoft Office Specialist training in packages such as Word and Excel. As a Microsoft Showcase College, we are part of a global network of institutions supported by the company to use technology to inspire quality teaching and learning.

PROFESSIONAL DEVELOPMENT

Roundhouse Thinking delivers high-end training that will help your organisation harness new and transferable skills, address complex challenges and drive growth and efficiency. This includes creating entirely bespoke programmes tailored to your values, culture and strategic ambitions.

Our experienced team specialises in all aspects of leadership and management, HR, finance and customer service. We can also help you comply with regulations through accredited qualifications in areas like first aid, health and safety, fire safety and food safety.

Open courses and e-learning opportunities mean that you can bridge the skills gap instantly and your staff can benefit from studying on the go.

HIGHER EDUCATION

Making higher education part of your long-term workforce development plan is a smart move. It gives your staff clear progression routes to advance their own career goals while setting new professional standards for your organisation.

For those who aspire to more senior roles, our part-time Foundation Degrees in Animal Management and in Equine Science, Management and Training are the perfect choice. Run in collaboration with the University of Derby, they offer a fascinating blend of academic study, practical classes and industrial visits. The qualifications can then be 'topped up' to a full BSc (Hons) degree with just one more year of study.

A new addition to our portfolio is a HNC in Horticulture which can be taken part time over two years and offers practical learning experiences throughout.

Become one of the growing number of organisations which have set up specialist academies to work with a select group of high-calibre students and help them build sector-specific employability skills.

Offer work experience

Nothing beats on-the-job insights to equip students with the right skills and attitudes for their chosen career. You could help by offering placement opportunities, work experience and workplace visits – or run special projects to engage and challenge students.
