

Our Values

Our values capture what we are all about at DCG, guiding how we work, lead, and collaborate. They encourage us to be optimistic, empower us to be innovative, caring, and to build a community where respect and belonging is widespread.

Optimism

We believe in positivity and a brighter future. Our optimism inspires us to overcome challenges, and seize opportunities with confidence.

Equity

We strive to create an inclusive and diverse culture. By making equity, diversity, and inclusion central to our policies and practices, we create a sense of belonging where all voices are heard, and our collective strength is harnessed.

Kindness

We believe everyone deserves to be treated with kindness and compassion, as a foundation for personal well-being and collective growth. Prioritising these leads to the creation of a nurturing environment where everyone feels valued, thrives and can reach their full potential.

Innovation

We evolve, driven by an innovative spirit, to challenge the status quo and empower our people to meet the evolving needs of our students, employers, and wider stakeholders.

Collaboration

We are committed to collaboration as a key to our success. By working together and leveraging diverse skills, we achieve remarkable outcomes and make a lasting impact.
